Property Description

This is an amazing ocean view property located in the hills above the town of Hatillo. It is actually 4 titled properties that are all joined together. There are several perfectly flat building sites and also plenty of gently sloped areas that can be built on. It sits at aprox 600 ft above sea level and has great views and breezes. Most of the property is cleared and ready for building but some of it has some nice big trees and it also has a creek. The entire property is surrounded by the rainforest and it has a very private feel to it. There are views of the ocean from most of the property and you can see the waves breaking in the Hatillo river mouth. It is the second last property on a dead end road so there will be next to no traffic passing by. The property has power and internet and it also has its own legal concessioned deep water well. It is ready to go. It is a 5 min drive down the mountain into the town of Hatillo and Another 5 min to the nearest beach, Playa Guapil.
