Property Description

A rare opportunity to own a large ridge-line property within the private, gated community of Bosque Verde (GreenForest), where nature preservation and elevated living come together seamlessly. For those who value environmental stewardship, this community was thoughtfully designed with sustainability at its core. Sixty percent of the 280-acre development has been permanently preserved as protected wildlife reserve, ensuring abundant biodiversity, natural beauty, and long-term privacy for property owners. The exclusive reserve is accessible only to residents and features scenic hiking trails of varying difficulty levels, three stunning waterfalls, and expansive green space that allows you to truly immerse yourself in Costa Rica's natural landscape. Generously sized homesite, well over one acre, strategically positioned along the ridgeline to maximize panoramic mountain and ocean views while maintaining privacy between neighboring properties.
